What is BoardBook®?

BoardBook is a web-based application that streamlines the preparation, distribution, and publishing of agenda packets. BoardBook builds a searchable archive of meeting packets and approved minutes. It opens the door to electronically distributing the agenda to the board, posting selected materials online and conducting paperless meetings.

What are some of the benefits of BoardBook?

- Save on printing and copying expenses
- Significantly reduce agenda preparation time
- Timely delivery and availability of board meeting materials to school board members and the public
- Links to IASB and local district resources
- Extremely easy to learn and use

What IASB resources will be immediately available?

One click access to:

- IASB Governance documents
- Resources on running effective meetings from public notice to publishing meeting minutes
- Pertinent legal and policy references
- Board meeting evaluation tools
- And much, much more

Can we add our own District Resources?

Yes! Any district resource available electronically can be linked to BoardBook. Imagine one click access to your:

- Local policy manual
- Staff directory
- Annual planning calendar
- Annual or Strategic Plan
- District goals

What does it cost?

BoardBook is available on a subscription basis for \$2,000/year. There is no software to install or set-up fees. Subscription includes:

- Personalized staff training
- Customization for your district
- Excellent telephone support service
- Online help features
